

# CA Technologies In Prague, R&D

## What We Are and What We Do

**Vanya Atanasova**  
Principal Program Portfolio Manager, R&D

April 24, 2018

**CA Technologies** is one of the largest independent system software companies in the world. We create software that fuels transformation for companies and enables them to seize the opportunities of the application economy.

- The CA Technologies Prague site was founded in 1998.
- The R&D Center was opened in 2005.
  - CA's biggest R&D site in Europe
  - 400 developers working on all aspects of CA's portfolio
  - 50 different nationalities - one of our most diverse in EMEA

# Product Development

- What we do everyday is “converting uncertainty to knowledge”.

Dantar Oosterwal, *The Lean Mashine*

- We do this through hypothesis-driven, Iterative and incremental development.
- So we can validate or invalidate our assumptions as soon as possible through fast feedback loops.

# The Levels

## PORTFOLIO

A Collection of Interrelated Engineering Initiatives – ROI Analysis, Funding, Long-Term Strategic Planning

## PROGRAM

A Team of Teams - Several Interrelated Projects

## TEAM

Single Team – Single Project

# CA Accelerator: a lean/agile approach to incubation

# CA Accelerator

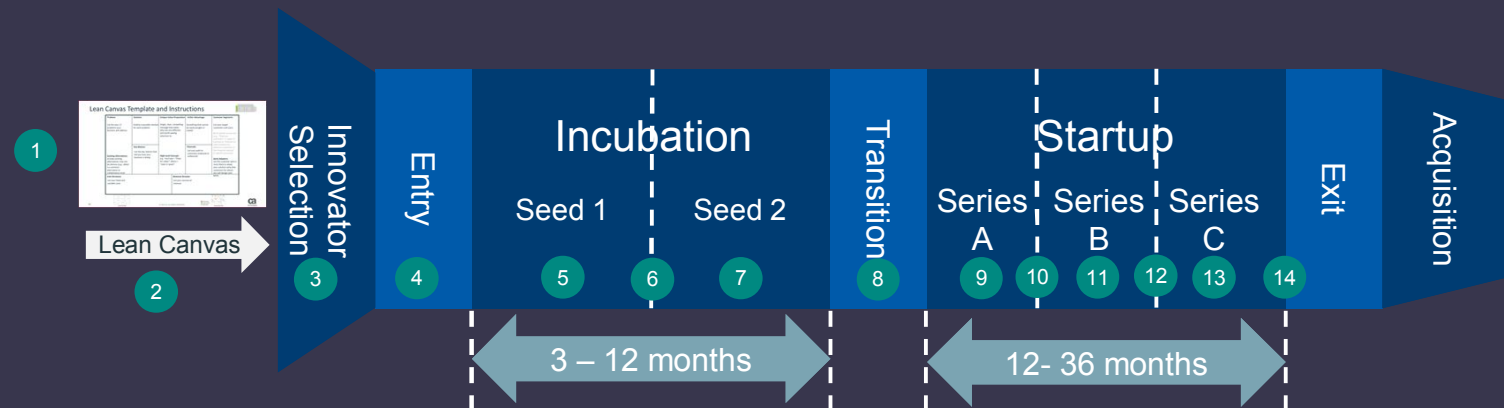

## governance

- Angel Team provides end-to-end management
  - Selects ideas from pitches by any CA employee
  - Reviews and approves start-up contracts created for successful pitches
  - Conducts monthly 3P (pivot, pause, or persist) reviews
  - Approves budget, objectives, and timelines set before work begins at each stage
  - Stage-specific checklists ensure focus on outcomes vs. output
- Investment Committee guides larger investments
  - Series B, C, and Exit
- Advisory Team provides direction and assistance from Entry to Exit

# CA Accelerator End-to-End

CA Accelerator leverages a VC-like model and lean startup best practices

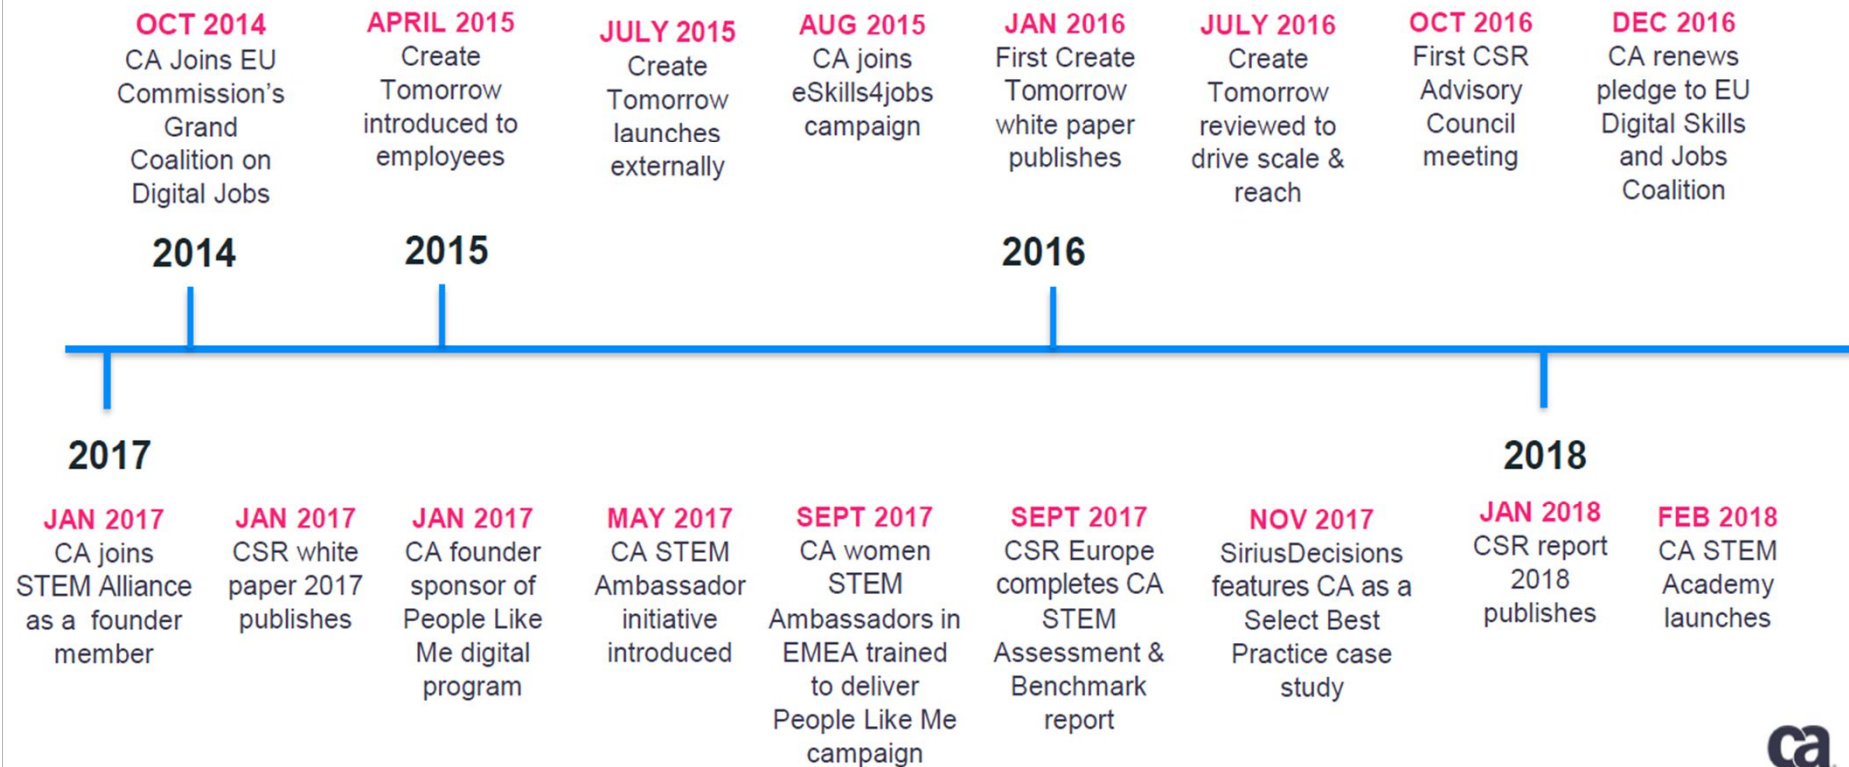

- Any employee posts a lean canvas to [accelerator.ca.com](http://accelerator.ca.com)
- Accelerator team provides feedback on the canvas
- Ten minute pitch to the Angel team; ten minute Q&A
- Successful pitch teams introduced to lean startup; intrapreneurs set contract for Seed 1 (objectives, time...)
- Teams confirm customers have the problem they intend to solve, and that it is painful enough that they would solve it
- Intrapreneurs request transition to Seed 2 with Seed 1 evidence and Seed 2 contract proposal
- Teams confirm customers would buy their proposed solution
- Transition request: Seed 2 evidence, Series A contract
- Teams build MVP, obtain customer feedback, find early adopters, get early sales and/or commitments to buy
- Transition request: Series A evidence, Series B contract
- Teams confirm they can attract early adopters (sales), begin integration preparation
- Transition request: Series B evidence, acquisition interest, Series C contract
- Product-market confirmation, integration engineering
- Product acquired by CPO

# Giving Back to the Community

# Create Tomorrow: Timeline

## FY18 in Review: **Prague**

**1,344**  
Students  
reached

**665**  
Female  
students  
reached

**51**  
Employee  
volunteers

# Create Tomorrow: **Prague Goals**

## **FY19 GOALS**

**30%** Europe workforce to volunteer in STEM initiatives  
**60%** females to be reached in total STEM initiatives  
**2,500** students to be reached in FY19

**STEM Ambassador  
Academy**

**People Like Me**

**CA STEM Ambassadors**

# Create Tomorrow: STEM Activities in Prague

## Funded by Communications

QTR & DATE	ACTIVITY	APPROX. STUDENT REACH	APPROX VOLUNTEERS NEEDED
All Year	Partnership with Faculty of Nuclear Science and Physical Engineering		
Q1 May	STEM Day at CA office (1) with Gymnasium Benesov students	+30 Students	14
Q1 May	STEM Day at CA office (2) with Gymnasium Benesov students	+30 Students	14
Q1 May	People Like Me First workshop with CA employees and their daughters.	Max. 20 girls With 1 parent = 20 adults	5
Q1	STEM Careers Massive Online Open Course (MOOC) – By STEM Alliance	600 STEM teachers average / 15,000 students	4
